

## Status of Plans of Operations or Plan Modifications Requiring an EIS

State \_\_\_\_\_ Quarter \_\_\_\_\_

Case Rec. #	Date Received	Date EIS Begun	Date ROD Signed	Date Bond Received	Date Mining May Commence

Instructions for use of the table.

1. The case recordation number is requested for identification purposes only, to enable one to distinguish one plan of operations (plan) or plan modification (modification) from another.
2. Once a plan or modification is submitted, show it in each subsequent quarterly report, and in the next quarterly report after it was approved. At that time, it may be removed from the report.
3. "Date Mining May Commence" is the date upon which the operator has all necessary approvals, including the bond submittal, from the BLM and may begin operations under the plan or modification.
4. If a plan or modification is withdrawn, write "withdrawn" and the date in the 'Date Mining May Commence' box.
